June 16th, 202

Although I am not able to attend the meeting on June 18th concerning the proposed "market" on Rt. 22 I would still like to voice my opinion.

How many "markets" can Dover honestly support & keep open?

We already have freshtown across the road, who employs many local residents, donates & supports local functions & has been there ever since the Grand Union closed.

What is going to happen to the people employed at freshtown? Not to mention another building / business sitting there empty.

Dover could definitely use something new but I'm not sure another "market" is it!

I hope & pray that

this project will be looked over carefully.

Sincerely,

Lisa Connor
(Dover resident)
