Town Planning Board.
This attachment is the LEGALLY recognized definition of family as it pertains to NYS law. It is obvious that Westchester Moduler must change ther proposal from multi family to Single room occupancey.Mr. Hatcher has stated numerous times that this housing would be used for his factory workers first and not related people. He stated on Oct 1st 2012 at the planning board public meeting that he fully expected numerous unrelated people to be living in these dwellings. He also has used the lack of a stable work force as reason to build. According to the legal definition a family DOES not comprise of transient people, I am asking that this issue be responded to in writing before the next planning board meeting. I also ask that this letter be posted on the towns web page.
Thanks Eamon Deighan
