Re: **NYSDOT SEQRA# 12-0144**
Huns Country Furniture
2549 Route 22, Dover
Dutchess County

Dear Wylock:

The New York State Department of Transportation consents to the Town of Dover Planning Board serving as Lead Agency for the subject project review.

A detailed engineering review is required as part of the NYSDOT Highway Work Permit process. Any work conducted within the New York State Right-of-Way requires a Highway Work Permit. The applicant should be directed to contact the local NYSDOT Highway Work Permit Engineer to initiate the Highway Work Permit review process. Please contact:

Chuck Walter, Permit Engineer
NYS Department of Transportation
334 Violet Avenue, Rte 9G
Poughkeepsie, NY 12601
(845) 473-3076

Certain submissions are required depending upon the magnitude and impact of the proposed project. These may include but not be limited to a Traffic Impact Study (TIS), SYNCHRO analysis of affected intersections, Site Plan (SP), Proposed Highway Improvement Plan (HIP), and other submission as directed by the Permit Engineer.

The applicant should also be encouraged to review the permit process and available forms on the NYSDOT website (<https://www.dot.ny.gov/index>).

Thank you for your interest in highway safety.

Very truly yours,

Chijioke K. Onyeche
