BLAST NOTICE

Dear Business Owners /Residents:

We at MD Drilling & Blasting, Inc. would like to take this opportunity to introduce you to our company and advise you that we have been selected to conduct a rock drilling and blasting operation for the Dollar General project on Route 22 Dover, NY.

The project will commence on or about the week of June 26, 2017. We will be blasting 1 to 3times a day. The blast project will last 3 to 4 weeks.

The site will be well marked with highly visible signs that detail the whistle warning sequence that will be sounded prior to commencement of each blast. All blasting operations will be conducted during daylight hours and no explosives will be stored at the construction site overnight.

If you happen to be in the building during the initiation of the blast, you may experience low levels of ground vibration. We will strive to minimize the amplitude of the blast and will be utilizing the most advanced technologies available to the blasting industry to measure the seismic effect of the area. Please be assured that ground vibrations associated with the blasting will not exceed the established limits that could potentially cause damage.

If you have any questions or concerns I encourage you to contact me at my Bloomfield, CT office at 860/906-3907during the hours of 7:00 am to 4:00 pm and I will respond to your concerns in a timely manner.

Sincerely,

A handwritten signature in black ink, appearing to read 'Barbara Barclay', is written over a light blue horizontal line.
