Mr. William Janeway
Regional Director New York State DEC
21 South putt Corners Road
New Paltz, New York 12561

February 19, 2010

Dear Sir;

Please be advised that per a DEC Permit issued by your agency for Rasco Materials, LLC,, tax grid number- 7061-00-585063 & 7061-00-580190, 2241 Route 22 Dover Plains, New York, the Town of Dover Planning Board is entertaining a Special Permit Application that would allow the applicant to process contaminated soil into a Cold Mix Asphalt Processing Facility.

Our Planning Board conducted a site walk of the property on January 16 2010 and the members were shocked at seeing a vast quantity of barrels containing unknown substances and numerous bags of carbon, both open and closed which apparently were left behind by previous industrial users of the property. As such, questions were raised as to the compliance of the facility with state permits and approvals, specifically with respect to the use, storage and disposal of potential hazardous materials

Based on the above, I as Chairman of the Board, invite you or your designee to attend our next Planning Board meeting of March 1, 2010, or Public Hearing on this matter to be held on March 15, 2010, 7:00 PM at 126 East Duncan Hill Road, Dover Plains, NY, with a possible continuance to April 5, 2010. I realize that your agency is over burdened with budget and personnel cuts, but our board has many grave concerns about this application and the site where Rasco intends to operate from.

Your cooperation in this matter is appreciated and you can be assured of our cooperation in all matters of mutual interest.

Sincerely,

David Wylock
Planning Board Co-Chair
