Prepare for Extreme Weather: Food, Water and Supplies Checklist

Food

Keep a food supply that will feed your household for 3 to 7 days. Having a reserve can reduce inconvenience and uncertainty until the storm passes or the power is restored.

- **Buy easy-to-eat and easy-to-prepare foods.** Choose foods that don't need to be refrigerated and require little or no preparation or cooking.
- **Build up your supply by buying a few extra items each week.**

Plan to prepare harder foods in fit events and give your family a feeling of security in times of stress.

Stock up on easy-to-prepare foods that will provide energy as well as comfort.

| | |
|--|--|
| <input type="checkbox"/> Ready-to-eat packaged/canned food | <input type="checkbox"/> Canned juice |
| <input type="checkbox"/> Protein or fruit bars | <input type="checkbox"/> Nonperishable milk, such as low-fat evaporated, condensed, boxed, or dry milk |
| <input type="checkbox"/> Dry cereal or granola | <input type="checkbox"/> Baby formula and food for small children |
| <input type="checkbox"/> Peanut butter | <input type="checkbox"/> Specialty food for older adult family members or those on special diets |
| <input type="checkbox"/> Dried fruit | <input type="checkbox"/> Pet food |
| <input type="checkbox"/> Nuts | |
| <input type="checkbox"/> Crackers | |

Bottled Water

- **Keep enough NYS-certified bottled water to last your family for 3 to 7 days.** This means having 2 gallons per person per day. Bottled water is the best choice for drinking and preparing food if your water is contaminated.
- **Individual needs can vary** depending on age, health, physical condition, activity, diet, and climate. Increase your supply accordingly.
- **Generally, an adult should drink 2 quarts of water per day.** Your clean water will be used for other purposes, which is why extra is recommended.
- **Use a clean container to hold water.**

Bottled Water in Emergencies

Contact your health department about bottled water availability (<https://www.health.ny.gov/emergency/flood/>)

Supplies

| | |
|---|--|
| Basics | <input type="checkbox"/> Cash and credit cards |
| <input type="checkbox"/> Battery-powered or hand crank radio | <input type="checkbox"/> Weather radio (for home) |
| <input type="checkbox"/> Flashlights for each room of the house | <input type="checkbox"/> Fuel (for generator, grill, or camp stove) |
| <input type="checkbox"/> Cell phone and charger | <input type="checkbox"/> Fire extinguisher (use ABC type) |
| <input type="checkbox"/> Battery-powered portable charger | <input type="checkbox"/> Labeled uncontracted chlorine bleach with no soap or additives (for water disinfection and cleanup) |
| <input type="checkbox"/> Extra batteries for radios, flashlights, portable chargers | <input type="checkbox"/> Manual can opener |
| <input type="checkbox"/> Candles, or at least a lamp and lamp oil | |
| <input type="checkbox"/> Matches and lighter | |
